

Brian D. Pierce, P.E.
Principal, Sevee & Maher Engineers, Inc.

Brian has been an active member of SWANA for two years and has served on the Northern New England Chapter board since 2019.

He is a principal at Sevee & Maher Engineers, Inc., (SME) a leading environmental and civil engineering consulting firm headquartered in Cumberland, Maine. Brian leads SME's solid waste engineering group and serves as the company's chief engineer.

He has over 26 years of experience in project management, design, permitting, and construction oversight of landfill and environmental engineering projects. His specialized expertise includes permitting, project management, and design of cell construction and closure projects for private and state-owned landfills throughout the Northeast.

Brian graduated from the University of Maine with a bachelor's degree in Civil and Environmental Engineering, and is a licensed professional engineer in Maine, Arizona, Maryland, Massachusetts, Ohio, Maryland, and New Jersey (pending).
