

Sarah Burke
Environmental Engineer
CMA Engineers

Sarah Burke is an Environmental Engineer at CMA Engineers, an environmental, civil, and structural engineering consulting firm with specialties in the waste and recycling industry. She works on a team of solid waste engineers that work with clients on designing and permitting new and existing facilities as well as environmental and permit compliance reporting. Sarah works for solid waste processing facilities, transfer stations, and landfills.

Sarah graduated from the University of New Hampshire in 2017 with a Bachelors' degree in Environmental Engineering. She joined CMA Engineers in 2016 as an Intern Engineer and after graduating, continued working as a project engineer.

Mrs. Burke is currently an engineer-in training under NH state licensing and she has gained experience with permitting and design, preparation of construction drawings and specifications, construction contract administration, and technical engineering reports.

Sarah has been a member on SWANA since she graduated college. Sarah currently serves as the Young Professional Liaison for SWANA's Northern New England Chapter.
