

Timothy Reed, PE, CPESC
Project Director
Sanborn, Head & Associates, Inc.

Tim has extensive experience working on site civil and solid waste projects, including the permitting, design, and construction of solid waste disposal facilities, scale houses, and transfer stations.

Key Expertise:

Solid Waste Engineering & Permitting

General Civil Engineering

Stormwater Management Design & Permitting

Computer Aided Design (CAD)

Tim's services have supported industrial and landfill facility expansions and the management of landfill gas and stormwater for both active and closed facilities. Tim is Sanborn Head's CAD Services Director and is pushing the leading edge of their CAD software's capabilities to create engineering documents and help clients visualize projects using 3D modeling tools. Tim is a University of New Hampshire alumni, having graduated with a bachelor's degree in civil engineering.

Tim's favorite part about working at Sanborn Head is helping his clients achieve their project goals, often working closely with them over the course of many years. He finds a special sense of satisfaction and achievement that comes from developing innovative solutions to overcome design obstacles, while completing projects on schedule and on budget.

Outside of work, you can find Tim working on do-it-yourself construction projects around the house or attending one of his children's school or scouting events.

Tim is a Professional Engineer in Colorado, Maine, Massachusetts, New Hampshire, Pennsylvania, Oregon and Washington and a Certified Professional in Erosion and Sediment Control.
