

Edward (Eddie) Galvin, P.E.  
Senior Project Manager  
Sanborn, Head & Associates, Inc.

Edward (Eddie) Galvin, P.E. of Sanborn, Head & Associates, Inc. is a Senior Project Manager within the Solid Waste Client Service Area working out of Bedford, NH. As a licensed professional engineer, Eddie's work includes permitting, design, and construction of disposal facilities located throughout the northeast and nationwide. Eddie is skilled at using AutoCAD to design landfills and landfill gas management systems. He interned at Sanborn Head throughout his undergraduate years as a civil engineering student at Worcester Polytechnic Institute and while working towards his master's degree in geotechnical engineering at the University of New Hampshire. Eddie's favorite part about working in the solid waste industry is that no two projects or days are ever the same. He enjoys the variety and getting to work with great team members to solve project challenges. Eddie is an active member of ACEC-NH where he participates on the Emerging Leaders Committee and mentors students as part of the UNH Senior Capstone Project program.
